Directors Study Annual Program of BG Chamber

A broad program of improvement was considered at the Tuesday dinner meeting of the Belle Glade Chamber of Commerce Board of Directors. Of primary concern was the need for a traffic safety study for the city and the reconditioning of the city's tourist assets and sites.

Directors voted to recommend that the city commission hire a reputable traffic engineer to study the present traffic problems of the city, particularly at Avenue A and Main Street and the existing hazards at the Main Street bridge.

Suggestions for adequate attention signs for tourists at that intersection was received favorably by the directors. The board approved letters be sent to school officials urging a program of pedestrian safety which would be taught to students.

Recommendations presented concerning the improvement of the library building action from the directors who said each of the civic clubs should be advised of the current needs of the library and building additions needed.

Council Studies Ad Valorem Tax To Boost Sewers

A new sewerage financing plan raised its head at the Belle Glade Commission meeting Wednesday when a motion was made to hold a freetholders' election to determine if an ad valorem feature could be tacked onto the plan.

The commission also settled a street paving discussion with O. G. McWhorter, subdivision developer.

With an eye to a better interest rate for the repayment of a \$11 million debt for the proposed sewerage system, the commission instructed the city manager to call E. C. Hodge, the city's fiscal agent and representative, in order that Hodge might explain how the city might pledge an ad valorem tax to the revenue charges of the sewerage system. By so doing, the council felt, a cheaper bond (Continued on Page Eight)

Tomorrow is Another Day

Needless to say, it requires a rather vivid imagination and a big supply of optimism to find bright spots in the situation as it exists here in the Glades these days. On one hand there are the people who are cold and hungry, the farmers who are losing their crops not once or twice, but three times, and the adverse, if well-meaning, publicity that is inevitable. On the other hand we have the many people who are devoting many hours of their time to helping our needy people, others who are donating money, clothing and food, and the farmers attempting to make jobs out of those out of work. It gets monotonous hearing some farmers criticizing the worker because he can't get him to work on cold mornings, or some workers criticizing the farmer because he won't pay enough and wants men to work when it is cold, of the tendency of so (Continued on Page Eight)

The Disaster Feed Program conducted through the Extension Service has ended as of Monday after eight applications out of 22 were approved by the Glades committee headed by George Wedgworth.

The Volunteer Fireman's Club held a business and refreshment session following their regular Monday night drill at the fire station at Belle Glade.

Officers elected include Hubert Swain, president; James Ellis, vice president; Clyde Pensenden, secretary; Cecil Bair, treasurer; and Wayne Bair, reporter.

In other department news, Fire Chief L. E. Will made public a letter of commendation sent to the department by E. J. Schoepel after a Feb. 12 fire at his home at Chosen.

The chief expressed his thanks and appreciation to the staff for the action taken then. It went on to say, "Cecil Bair and his men were most courteous and I and my wife were particularly impressed since they left their house spots even after the use of water and various chemicals in putting out the fire. Most of us in Belle Glade are truly never fully aware of the capabilities of our fire department until we are personally affected by such a loss."

Schoepel's gratitude was backed up with a \$25 donation to the department's benevolent fund.

MOTTO REWRITTEN

Postal Folks Receive Praise

The adverse condition of Mother Nature has caused the classic post office motto to be rewritten somewhat at the Belle Glade Post Office. Now the motto reads:

"Neither snow nor rain nor heat nor gloom of night, (nor flu)"

Stays these couriers from the swift completion of their appointed rounds. (Ah-choo!)"

A letter of commendation to Belle Glade postal workers was read at a short convocation Monday at the post office, according to Postmaster George Farrington. The letter was signed by H. B. Dean, regional director, at Atlanta.

Text of the message was: "It is well-known that the State of Florida has suffered unusually bad weather this winter, and this circumstance has contributed greatly to the difficulties of performing carrier service."

"Despite the handicap of bad weather and illness; however, you were able to make efficient delivery of the mail by your (Continued on Page Eight)

Second Mass Relief Program Begins For Glades Migrants

Some Migrants Would Rather Eat Than Work

The exodus from Belle Glade began early Thursday morning as streams of cars and walking migrants thrashed at the Belle Glade National Guard Armory to be fed from surplus free foods and donated commodities by Salvation Army officials and Emergency Migrant Committee workers.

More than 60 volunteers, under the general supervision of Capt. John M. Kroeze, hope to help approximately 3,500 in a two-day period. With more than 95% of those applying being Negroes, probably no one is being refused aid, Kroeze stated Thursday.

For a typical family of five the distribution is: 20 lbs. flour, 10 lbs. meal, five lbs. milk, five lbs. cheese, three lbs. beans, two lbs. sugar (donated by U. S. Sugar Corp.) two lbs. each of lard and bacon.

In addition each family with an infant gets 13 cans of canned milk. Besides the above basic stuffs, 800 quarts of milk, 500 lbs. of fish and 1,000 pounds of bread. Similar portions are being distributed at Pahokee.

\$1,000 worth of kerosene is being distributed on a two-thirds one-third basis with Belle Glade disbursing the larger share.

Labor Employment officials at the armory met with no success this week as they tried to recruit 100 men to work in corn fields. U. S. Sugar will still take all the healthy male workers they can get to cut cane. There are no takers.

...THOUGHT

GOD'S SAFETY PLAN

By Rev. E. O. Varum

God's safety first plan is:

"Abstain from all appearance of evil."

Paul said, "Let not then our good be evil spoken of."

If it is questionable by you or others, whether something is evil, you will do well to steer clear of it.

Things which seem harmless may lead one into greater excesses, or cause him to become careless.

It is therefore very dangerous to indulge in questionable practices, for one runs the risk of falling into destructive and damnable indulgences.

This is exactly what some church folk are doing.

These things are not written to condemn anyone, but with the hope of arousing everyone to some serious thinking and more definitely, to some God pleasing choices and actions.

Eternal life and heaven are not things that we can afford to take a chance of missing.

Neither should we ever take a chance of marring our Christian influence. Observe the safety-first plan of God's Bible and you will never go wrong.

Neither should we ever take a chance of marring our Christian influence. Observe the safety-first plan of God's Bible and you will never go wrong.

Churches Of Christ, Scientist

The fact that all things are possible to God will be brought out at Christian Science services Sunday.

Scriptural passages in the Lesson-Sermon in "Mind" will include the following from Isaiah (40:26): "Hasst thou not known? God has not known? God, the Lord, the Creator of the ends of the earth, faintest not, neither weary? there is no searching of his understanding."

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy will be read the following (180:23): "When man is governed by God, the ever-present Mind who understands all things, man knows that with God all things are possible. The only way to this living Truth, which the Science of the soul is, is found in the Science of the divine Mind as taught and demonstrated by Christ Jesus."

The Golden Text is from Job (38:5): "Behold God is mighty, and despieth not; he is mighty in strength and wisdom."

Under his leadership from 38:7 or a net gain of over four million. Vacation Bible School enrollment advanced from 807 to 2,733, 990 over the same period.

Training of layworkers, grading by age and sex, weekly meeting of officers and teachers, and the promotion of standards have been basic in Barnett's promotion through the ranks of the organization.

Also of prime importance has been an enlisting new workers, forming new classes and departments, annual promotion of all active members, additional space in buildings and regular systematic visitation.
